ASX Announcement

20 December 2018

CropLogic First Sale from Mildura Office - Clarification

On 12 December 2018 CropLogic Limited (**ASX:CLI**) ("**CropLogic**" or "**Company**") announced that it had made its first sale from the Sunraysia region, for CropLogic's agri-tech hardware and software solution, **CropLogic realTime**. The announcement of this first sale followed the Company's recent opening of its first regional Australian office, in Mildura, Victoria (announced during the [September 2018 quarter](#)), and the appointment of Regional Sales Manager, Cedric Geffen, and Sales Agronomist, Talitha Gollan (announced [12 November 2018](#)).

CropLogic further advises that whilst the amount of the first sale was not material, this first sale is a key achievement for CropLogic and meets one of the Company's operational goals it had set for the 6-month period to April 2019.

CropLogic has received a positive response from the Mildura regional Government and its partners as well as from the local farming community and looks forward to working with the region in future including targeting regional crop trends and providing knowledge, expertise and technology, including CropLogic realTime, to assist growers to optimise their crop yields.

- END -
